

## FREE E-BIKE LENDING PROGRAM

In partnership with Local Motion, the Plainfield and Cornish Energy Committees will have 3 e-bikes for check-out between August 11 and August 26 for Plainfield and Cornish residents 18 and over. You can borrow a bike for a 4-day or 3-day stint, or sign up for one of our demo days (Aug 15 and Aug 22) to do a 45-minute ride. The multi-day loans will be done from Jen Lenz's shed at 115 Main Street Meriden NH across from the Meriden Town Hall. The Aug 15 Demo Day will be held at the Cornish Town Hall at the Cornish Fair Grounds and the Aug 22 Demo Day will be held at the Philip Read Memorial Library parking lot in Plainfield.

Registration opens at 4 pm on Tuesday, July 28th. You can sign up [here](#). If you have any difficulties with the registration process, please contact Plainfield or Cornish Volunteers - Jen Lenz ([jennifer.a.lenz@gmail.com](mailto:jennifer.a.lenz@gmail.com)) or Ron Eberhardt ([rceberhardt@gmail.com](mailto:rceberhardt@gmail.com)) or Bill Cable ([billxcable@gmail.com](mailto:billxcable@gmail.com))

The e-bikes are being hosted by Energy Committee volunteers and will be cleaned by the volunteers after each use. Here is a schedule of where each bike will be and when. You will receive more specific info when you register:

Sun - Tues Aug 23-25	3 day loan	3 day loan	3 day loan	Jen Lenz Meriden
Wed - Fri Aug 26-28	3 day loan	3 day loan	3 day loan	Jen Lenz Meriden

## **ABOUT THE BIKES:**

### **SPECIALIZED HARD ROCK WITH CONVERSION KIT**

This bike is a regular bicycle (2000 Hard Rock) with an electric assist added to it in the form of a DIY e-bike conversion kit. The standard bicycle is equipped with a motor and a battery to provide the e-assist. The motor has a built in torque sensor and responds to pedal pressure not cadence. The conversion cost was about \$800 not counting the used bicycle. The bike is sized for a small-medium rider.

### **RAD POWER BIKES RADWAGON**

The RadWagon is a cargo e-bike that can carry you and your kids, groceries, and other valuable cargo around town and some mild backroads. You have the option to borrow one or two Yepp kid seats that are rated for kids up to 45lbs each. The 5 pedal-assist levels and throttle help take the buckets of sweat away from your bike commute and the cargo carrying ability makes this a true car replacement! (Retails for around \$1500)

Minimum rider height: 5'2

E-bike weight: 73 lbs

Transport: ride home,  
truck bed, van

Radwagon with Yepp  
kid seats

## **SPECIALIZED TURBO COMO**

This e-bike feels like a rocket ship (if you want it to). Its over-sized road tires absorb bumps and cracks in the road. The e-assist propellers you over hills and across flats. The Turbo Como is great for commuting any distance, from 2 miles to 20 miles. With a range of up to about 60 miles, the Como will take you far! This bike fits folks who are 5'6" and taller. (Retails for around \$2,700).

Minimum rider height: 5'6"

E-bike weight: 48 lbs

Transport: ride home, truck bed, van
