Jim Barker explained that Conservation Commission is responsible to maintain trails. They would like to take over management of CREA land. There hasn't been much communication between groups that use the property. It has been a year since the last meeting. Hayfields are under contract with the Rice's. Fields and swales are mowed annually. More communication is needed between groups involved with the property. Everyone has an opportunity to talk about what would be best for the property. Many felt we should try a revitalized CREA Committee. Dale will try to put out a new brochure describing the property. Biannual meetings can be held in late August and April for meetings and work days. Next meeting will be Thursday, August 23, 2018.
4. Selectmen moved back downstairs.
5. Mike Duval came in to talk about mowing on CREA before the Cornish Fair.
