

Energy Efficiency rebates available through NHSaves

If you are thinking about replacing an old appliance, you might want to consider getting a new appliance that is Energy Star-rated, and take advantage of the many after-purchase rebates available through New Hampshire's energy efficiency program known as NHSaves. There are also tremendous incentives for weatherizing your home. Check out details at nhsaves.com.

Here's what you can save:

Dryers:

\$40 off for Energy Star conventional dryers

\$100 off for Energy Star hybrid heat pump dryers

\$200 off for Energy Star heat pump dryers
