

Meeting Minutes for Cornish Broadband Committee -draft-

Date: October 23, 2023

Time: 5:30 pm

Cornish Town Offices

488 Townhouse Rd.

Cornish, NH 03745

Attendees: Mike Fuerst, Shelley Brookings, Kevin Noble, Steve Jameson, Jason Bourne

Absent-, Corey Stevens, Jessica Butel

In attendance- Peter Martin- Town of Plainfield broadband representative.

The meeting opened at 5:31 PM.

The committee was updated on the BMGI grant which was filed on October 20,2023 by HUB 66 on behalf of Cornish and Plainfield.

There was a long discussion about the missing data on the FCC Broadband Map fabric for Cornish and Plainfield. It is not clear why this information is missing and what impact it would have on the application process. The data does appear on the FCC map itself. Kevin, Jason, and Steve will work to update and correct the list of addresses of unserved and underserved locations in Cornish. Peter Martin will work on the Plainfield list. We will get the updated information to HUB 66 and to the UNH Broadband mapping program. According to David Justice, the director of the UNH program, they will then file a challenge with the FCC as to the inaccuracies in the data.

Mr. Justice suggested that we ask the residents of Cornish and Plainfield to go to the FCC site and perform a speed test. This will allow them to have more accurate information about who is providing services to the communities. Mike will drat information about this issue for posting on Connect Cornish. Motion to adopt the October 4, 2023, minutes by Shelley, seconded by Kevin, passed.

Next meeting on Monday, November 27 at 5:30 PM

Meeting adjourned at 6:25 PM.
