The meeting opened at 5:37 PM.

The committee was updated on the BMGI grant which was to be filed on October 20,2023 by HUB 66 on behalf of Cornish and Plainfield. Have had no communication from State or HUB66 as status. Mike & Kevin will follow up.

The subcommittee working on the accuracy of the data listing unserved and underserved addresses in Cornish and Plainfield reported its progress. As was no surprise the data originally provided to us had a several inaccuracies. Kevin will submit our corrected address list to the UNH Broadband Mapping program.

After the holidays we will place an article in Connect Cornish updating the towns on the status of grant approvals. Also, we will at that time ask Cornish and Plainfield residents to perform speed tests on the UNH Broadband mapping site. This will assist UNH in improving the accuracy of its map.

Motion to adopt the October 23, 2023, minutes by Shelley, seconded by Kevin, passed.

Next meeting on Monday, January 15, 2024 at 5:30 PM
